**Clamp-On Locking**  
Can be padlocked to rail sizes 85-lb to 140-lb. Lock included. Weight 10 lbs

**Clamp-On Insulated**  
For use near electrified third rails.  
Weight 4 lbs

## Permanent Sign Holders

**Spike Holder**  
For use in ballast, asphalt, or other soft ground. Pound spear base into ground and insert holder staff. Weight 20 lbs

**Spike-Down Hinged**  
Tie plate base is spiked to tie. Hinged sign holder folds down. Weight 16 lbs

**Permanent Hinged**  
Bolts to base of rail. Holder folds down flat. Weight 15 lbs

Sign plates are manufactured in compliance with OSHA regulation §1910.261(c): 1910(b) and must be purchased separately from the sign holders. Each plate measures 12" x 15" and is constructed from .080" thick aluminum, available in red or blue finishes, featuring white reflective lettering. All signage is printed in English, with select options also offered in Spanish and French. For additional details, please reach out to a Riemsarail representative.
